About Us

Gumpro Chemicals was established in the year 1993. We are leading Manufacture and Exporter of Sulphate Asphalt (Gel Phosphate), Magnesium Oxide, Asphaltic Fluid Loss Controller (Gel Trol), Secondary Emulsifier Cum Wetting Agent (Gel Wet), Barite API (Gel Bar). Our company has in house developed drilling fluid additives for the Indian Oil exploration and the international market. Gumpro offers a complete range of drilling fluids like Specialized Lubricants, Stuck Breakers, Loss Circulation material, Dispersants, Fluid Loss Reducers, Viscocifiers and Weighing agents. The company has a state of the art R&D Laboratory supported by well experienced engineers to develop and design new innovative drilling fluid systems and field supports.

The company has developed unique products for Loss Circulation control application with worldwide acceptance. At present, the company has been manufacturing facilities in India where all the major oil fields are located. Stringent quality control is maintained at all levels of production. Health, safety and environment norms are strictly observed. We have experienced man power trained to supervise and implement our company's programs and match all our clients requirements. We specialize in custom packing of materials as per the clients requests. To meet with the overall requirements of the industry, since the year of 1995 we have introduced a new division of service, well known as Gumpro Mud School where Engineers are trained to be...
