About Us

It is said that marriages are made in heaven and solemnized on earth. On this Mother Earth, we Indians love to celebrate weddings of our near & dears.

Indian weddings are not just confined to union of two souls. They are a union of two families.

With the complexities of today's world, one needs the help of professionals as well.

And here we come with a vast experience behind us.

We are professionals who put their heart & soul into fulfilling your dreams. We have set high standards for ourselves but our feet are firmly planted on the ground. We know that you are an individual who has his/her own preferences, value systems & attributes. So flexibility & adaptability are key words propelling us to help you find your mate.

For us you are not a number. When we associate with you, it is with the thought that this association is going to be a pleasant experience for both of us & when in future you look down the memory lane, you think about us as fondly as you do about your family & friends.
