Halftone Die Makers Private Limited

<https://www.indiamart.com/halftone/>

Established in 1999, we at Halftone offer Prepress Services established itself as a quality prepress service provider by using latest versions of technologies at our offshore prepress services center in Hyderabad.

About Us

The prepress services team at Halftone understands that the press is one of the biggest mediums of communication and advertisement and hence everything including pictures and graphics have to be immaculate. That's the very reason why our pre-press team spares no effort into making its prepress services the highest quality.

Our pre-press operators are pros in techniques like path cut outs, color balancing, color correction and we are specialise in Packaging works and Bookwork Impose.

Our team of quality prepress professionals uses the latest versions of graphic arts software (such as Adobe Creative Suite, Coral Draw). Each file we receive goes through an intense review to ensure it will result in the finished prepress product desired.

The best part of our prepress service is that we offer prices which are unbelievable and very hard to find anywhere in the market yet maintaining quality of the highest order.
