About Us

We, at HDFC securities, act as an intermediary, providing you with an easy and seamless online trading platform. You, as our client, get an opportunity to select from a bouquet of our products viz online trading, call & trade, mobile app and more, to suit your convenience and requirements to trade in the equity (stock) markets. Our user-friendly trading platforms, coupled with consistently successful research-based investment/ trading calls, make HDFC securities one of the most sought-after destination for investors (traders).

A Mutual Fund is a pool of money collected from numerous investors. Investing in Mutual Funds is a lot easier and less risky, as compared to stocks. This is because the funds are invested in a diversified asset class and managed by expert professionals.

A Corporate Fixed Deposit (FD) is an investment in a company for a fixed period at a prescribed rate of interest. Both, Financial and Non-Banking Finance Companies (NBFCs) raise capital via such deposits.

We offer a range of Corporate FDs varying in tenures, interest rates AND institutions to suit your investment needs. Our rich menu of AAA and AA-rated fixed deposits of varying tenures provide stability to your portfolio in a volatile market.

Insurance is a financial cover taken by individuals or entities to protect themselves from unforeseen liabilities. Life Insurance guarantees a sum of money to an individual's loved ones in the event of the unfortunate...
