## About Us

Heinz came to India in 1994 by taking over the Family Products Division of Glaxo with powerful brands such as Complan, Glucon-D, Nycil and Sampriti. Heinz India is fully integrated into the global Heinz operations employing high standards in quality at its state-of-the-art manufacturing facility at Aligarh in the State of Uttar Pradesh. This manufacturing facility is HACCP certified and follows GFMP (Good Food Manufacturing Practices) to deliver nutritious and safe food products to our discerning consumers. Heinz in India provides **taste and nutrition** through globally trusted products like Heinz Tomato Ketchup and strong local products like Complan - with extra growing power, Glucon-D - the refreshing energy drink, Nycil - the most effective prickly heat powder and Sampriti Ghee - Mahek bhara swaad.

Heinz products synergize the three pillars of the Heinz tradition namely TRUST, TASTE & NUTRITION.

Today, iconic brands like Complan & Heinz and category leaders like Glucon D & Nycil are being nurtured with a combination of formulation and flavour upgradation, packaging innovations and new positioning strategies with strong equity quotients.
