## About Us

Hero Future Energies Pvt. Ltd. (HFE), one of the leading Independent Power Producers, is poised to integrate renewable energy in the energy mix of the country by identifying the best solutions and install renewable energy systems bench marked against the best-in-class engineering standards. HFE which came into existence in the year 2012, carries an illustrious legacy of the Hero Group. The company is focused on futuristic and clean energy. HFE has presence in nearly ten states of India with high quality operating asset base of ~ 360 MW across wind, solar PV (grid connected) & rooftop plants. The company to focus on solar – wind hybrid technology in the near future. Under the able leadership of Rahul Munjal – Chairman & Managing Director and Sunil Jain – CEO, HFE has scaled new heights since its inception. The senior management and execution team are highly skilled and efficient, helped the company achieve one of the lowest employee per MW in the industry. The company is known for adhering to the highest standard of corporate governance. The company has a pipeline of ~1100 MW of wind projects till 2018-19 and estimated to secure more than 500 MW solar projects under state and central bidding by 2015-16. In rooftop solar, the company has plans to implement 100 – 200 MW by 2018-19. The company is optimistic about building a robust portfolio of 2.5 GW by 2020.
