## About Us

**HexaTech Solutions** was incorporated in the year 2010 with the aim to provide high-tech Security products to ensure our customers get the best range available in the market. As of today, we are based in Maharashtra (India) and pride ourselves at having catered to numerous people.

### **Selection Criteria for Vendors**

We ensure to check certain criteria before selecting a manufacturer as our vendor. They are mentioned as follows :

- Reputation
- Financial strength of the company
- Brand Value
- Technical resources
- Human expertise
- Quality of products
- Compliance with social standards

### **Inventory Control Management**

To maintain proper record of finished goods and maintenance supplies, we have installed highly sophisticated inventory management systems at our warehousing facility. This enables us keep products' availability at all time and protect us from stock-out situations. Our system empowers us to avoid any kind of confusion and note which products are frequently demanded.

### **Delivery & Shipment**

We monitor all consignments at factories to make timely deliveries. Coordination between supplier and shipping companies is established by us to ensure fastest shipping lead times. Furthermore, we make sure suppliers expedite and process all necessary documents on time as well.
