## About Us

Founded in 1988, Hicool is a leading brand in air moving products serving diverse markets including IT & Telecom, HVAC, Refrigeration, Industrial, Drive Systems, Automotive & Rail Technology, Medical & many more. Our highly skilled & experienced engineers are ready to tackle your most difficult air moving challenges & offer tailored solutions that meet your requirements ensuring lowest lifetime cost. Passionately involved in R&D we strongly believe in continuous improvement. With state-of-the-art manufacturing facility, production capacity of over three million motors, test lab for performance, conditioning, endurance, noise level, airflow and static pressure, in house tools & dies development, small volume custom developed products, short turnaround time for samples - are a few reasons why customers are our loyal fans.
