## About Us

Go Green! Go Paperless! is the slogan of the environment which is absolutely suitable for our Software. Paperless office was a dream for all the big organizations of the world and this dream has come closer to reality in this era of technology where human beings are replaced with computers and large amounts of data has been moved from papers, files, registers to the systems with the help of software.

If you are running a school or college, then we have designed very comprehensive ERP software for managing activities of schools, colleges affiliated with any Indian university. The emphasis is on bringing paper free school / college administration offices, reduce the wastage of time and resources in data management, and generating the better revenues with hundred percent of accuracy and security. This College ERP software is a magnificent way for managing schools and colleges methodically.

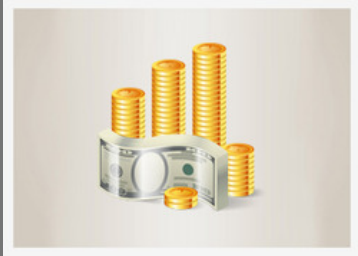

This School ERP software is an integrated solution which satisfies the term of complete computerization for colleges and schools. This is a customized solution which includes all modules & functions required for administrative purpose of a school or college. School ERP software is suitable for all kind of colleges and schools. Regardless of the type of school or college you may have, "Vridhhi" will satisfy every need of your office automation and record processing. To know more about Vridhhi ERP Demo watch video
