### **About Malegaon Textile Cluster**

The Cluster of Malegaon has about 6000 (5856) power loom units of which about 450 units are registered units. The core cluster firms provide employment to over 60,000 weavers and operators produce over 1.2 crore metres of grey fabric per day. The turnover of the cluster is about Rs. 3,974 crore per annum and production in terms of fabric is about 330 crore metre per year. The Cluster provides employment to a large segment of the Minority population and weaker sections of society. The average investment in equipment and machinery of a core enterprise, namely, a power loom unit is Rs. 9.6 lakh considering a simple average of 24 looms per enterprise. There are evidently about 1.5 lakh outdated, and invariably second hand power looms in the cluster and about 100 auto-looms. A couple of Ginning and Spinning mills as well as traditional Batch-process Bleaching Unit provide job-work service to support the activities of core cluster...
