About Us

We HIREN Engineering Corporation (HEC) is the Nashik, India based manufacturer of precision plastic parts. Our scope of supply includes injection-moulding parts to gas meter system, Switchgear industry, Luggage industry, and battery industry.

We are the proud exporter of gas meter parts for **Actaris Meter system UK**, Auto parts for **Linear logic USA**, assembly parts for **Bader Al Mulla DUBAI**. HEC is an **ISO 9001:2008 certified company** & has been guided by the principle, which recognizes the availability of the right parts at the right time and at right cost. As a quality plastic product manufacturer of a broad range of polymers, we strive to be your preferred source for all injection moulding parts, sub assemblies. Skilled workforce, professional management, internationally accepted parts, **delivery reliability**, superior service, **cost competitiveness** are the major strengths of our organization.
