# Hmr Constructions (p) Ltd

<https://www.indiamart.com/hmrconstructionspltd/>

We are one of the renowned constructors from India having expertise in the construction of Steel Bridges, Pre Stressed Bridges, Flyovers, Approach Rods and Suspension Bridges.

## About Us

Established in the year 1944, we are one of the oldest companies in India, engaged in the constructions of various Bridges, Flyovers and Approach Roads like Pedestrian Bridges, Road Builders, Steel Girder Bridge, Sidewalk Construction, Civil Construction Contractors, Civil Contractors, Turnkey Civil Contractor, Construction Service, Industrial Construction, Industrial Construction Projects, Telecom Infrastructure Solutions and many more. Leveraging on our experience and expertise and with the decision of the Government of India to upgrade infrastructure in the country by widening of roads and building more bridges, we have successfully undertaken (EPC) engineering procurement construction contracts in the North Eastern States of India. In addition, depending on the demand segment in this growing economy, we are looking for execution of larger projects. We have with us a diversified experience in both products and services to en-cash on high capital expenditure by infrastructure creators both in public and private sector. We have diversified further into providing complete solutions engineering procurement construction (EPC) to not only supply but also construct and execute the projects on turnkey basis for higher margins by providing integrated operations and solutions. In view of expansion of activities, the Company took permission from Company Law Board and renamed its name to HMR Constructions Private Limited. We have constructed Steel Bridges...
