About Us

Changing industry trends, consumer patterns and increasing challenges, makes it mandatory to have precise and complete control over your plant and processes.

At ICAM we design, create and deliver Control System Integration and Process solutions with best practices and technologies.

ICAM Technologies Pvt. Ltd. is a Recognized System Integrator for Rockwell Automation/ Allen Bradley, Authorized distributor for Pepperl+Fuchs, Germany for their Factory Automation Products, Authorized Channel partner for Hilscher, Germany for Communication solutions and also Authorized Distributor for GEA Tuchenhausen GmbH.

"We are also an ISO 9001:2008 certified organization." Experience & Expertise With 30 man, years of experience in the company, we have a proven track record of several projects completion in this field. We have delivered control systems and solutions that are the best-in-the-class to several industries. In these years, we have become the preferred Integrator with customers, who have appreciated our work, and our efforts to deliver a more tightly integrated system, a more reliable system, and a solution that is in line with their budgets. Today we are the Integrators of choice for customers in India and abroad, and have a proven track record with customers and consultants in several countries like US, UK, Jamaica, Sri Lanka, etc. Our expertise and experience, in design and manufacture of critical control systems is testified by several assets,...
