<https://www.indiamart.com/icanautomationsolution/>

We are distinguished Manufacturer and Supplier of wide gamut of ELECTRICAL & PLC PANEL SUPPLY COMMISSIONING & INSTALLATION,etc.The offered systems are widely demanded for their low maintenance,long service life and easy installation.

About Us

Incepted in the year 2009, in Greater Noida (Uttar Pradesh, India), we “**Ican Automation Solution**” are the noteworthy manufacturer and supplier of wide assortment of **Electrical Panel, Industrial Machine, SCADA System, Automatic Power Factor Panel, AC And DC Drive**, etc. The offered products are manufactured by making use of optimum grade of components with the help of sophisticated machines in compliance with set industry norms. Moreover, these products are checked for their efficiency and working life on several stages of quality parameters before being supplied to our clients. Our offered products are widely demanded in different small and large scale industries for various purposes such as power supplying, controlling electricity supply, oil filling, etc. We offer these products to our clients in different technical specifications as per the information laid down by our clients. These products are appreciated by our valuable clients for their enormous features such as robust construction, easy installation, low maintenance, precisely engineered, less power consumption, high efficiency and long service life.

In order to manufacture these products with great precision, we have set up a widespread infrastructure unit that is facilitated with all types of machines and tools. This unit is segregated into several sub-functional units such as manufacturing, engineering, designing, quality testing, storing, packaging, etc. All these units are...
