About Us

LOGISTICS is defined as the art and science of managing and controlling the flow of goods, information and other resources like products, services, and people, from the source of production to the marketplace. It is nearly impossible to accomplish any international trading, global export/import processes, international repositioning of raw materials/products and manufacturing without a professional logistical support.

We at Icon Logistics provide you with this valued service with reliable and knowledgeable expertise.

Logistics involves the integration of information, transportation, inventory, warehousing, material handling, and packaging. The operating responsibility of logistics is the geographical repositioning of raw materials, work in process, and finished inventories where required.
