IDA Underwater Services was founded in 2010 in mumbai city to offer diving service and to bring together the diving fraternity under the roof. During the last many years we have grown into a full-fledged organization.

About Us

IDA Underwater Services was founded in 2010 in Mumbai city to offer diving service and to bring together the diving fraternity under the roof. During the last many years we have grown into a full-fledged organization, having one of the biggest pools of divers in central Asia, who are capable in providing diving service at any depth with the Indian Ocean.

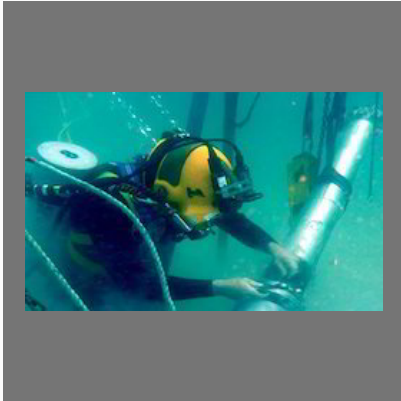

Our divers and diving technicians with their professional and extensive experience have contributed to our growth substantially in the diving industry. This company is managed by Yogendra Choudhary. Most of our divers and diving technicians have naval experience and are trained and certified in commercial diving, H. S. E. and IMCA. Our services include jetty repair & construction, underwater welding & cutting, ship salvage, dam work, removal & installation of sacrificial anodes, pipe line laying, removal & installation of piles etc.
