Innovative Engineering Products Private Limited

<https://www.indiamart.com/iepl/>

We are engaged in the development of various modern maintenance technologies which provide time effective and cost efficient solutions for the repair and maintenance of mechanical, electrical, civil and a host of other equipments and structures.

About Us

We **Innovative Engineering Products Pvt. Ltd.** established in the year **1991**, we are one of the leading providers of industrial supplies and services in **Gujarat**.

Over twenty four years, the business has grown to represent over huge portfolio of over 6500 active products and a technical archive of over 10,000 items supplied by a range of vendors. We have strong and pro-active relationship with our clients that represent the best in their category. Our customers come first, and it is our ambition to create long-standing customer relationships by delivering professional and high value service. Our focus on customer service, outstanding quality and accuracy has made us the first choice for customers in Gujarat.

IEPPL is now considered the leading solutions provider for remedial repairs of defects and anomalies in mechanical, electrical, civil and various other structures and equipments. Traditional and expensive methods for repair included shutting down production and replacing defective machinery or structures which proved to be costly and time consuming. With new technologies, companies are now able to run their plants in operating conditions and are also able to protect their machinery, equipments and structures, from the jeopardy of a catastrophic failure due to erosion, corrosion, lubrication, etc. IEPPL, after a detailed study of the problem, provides an appropriate solution, which permits continual operations...
