Ikon Instruments

<https://www.indiamart.com/ikoninstruments/>

We are an ISO 9001:2015 certified company in manufacturing and supplying equipment like Laboratory Equipment, Laboratory Testing Equipment, Laboratory Food Testing Equipment which are used in Food Processing, Pharmaceutical and Laboratory.

About Us

An ISO 9001:2000 certified company, Ikon Instruments, has been in the limelight for years due to its premium quality range of laboratory equipment, food processing equipment, food processing machines, pharmaceutical equipment, seed testing equipment & analytical instruments. our entire range encompasses juice presses & exhaust boxes, boerner grain dividers & grain rice sizing devices, autoclaves vertical & horizontal laminar flow, de humidifiers & lyophilizers, water still & lab willey grinders and others.

All our equipment are energy saving, precision engineered and offer optimum performance. With the help of our well equipped infrastructure, we have completed all our orders within the given time frame. Quality basic material is used in our manufacturing process in order to give our customers a good value of their money. We always make sure that we offer cost-effective and long-lasting products to our clients. Under the dynamic guidance of our mentor, Mr. G. P Arora, we have made a name for ourselves in the domestic market. His experience has helped us to manufacture premium range of equipment and instruments that are used in many industries.
