Indian Acrylics Ltd is the largest and most efficient acrylic fiber manufacturer of India and an important player in the global industry with exports to Asia, Europe and the Middle East.

About Us

Indian Acrylics Ltd is the largest and most efficient acrylic fiber manufacturer of India and an important player in the global industry with exports to Asia, Europe and the Middle East.

Its dry spun acrylic fiber quality is outstanding thanks to its unique dog bone shaped cross section.

Product optimization, reliability and environmental consciousness (green captive power generation since 2002) make Indian Acrylics a preferred supplier for acrylic fiber, tops, and tows.
