About Us

The Indian Institute of Aircraft Engineering is a unit of Jayanti Aviation Pvt. Ltd. registered under the Companies Act. 1956 on 09 June 1998. IIAE is a co educational institute which was established to serve culturally diversified students from across the continent motivated towards the career in aviation. The teaching and training programme is planned in traditional setting of intense campus learning. IIAE is now an undisputed leader in Aircraft Maintenance and Aeronautical education in India. The curriculum of IIAE covers the guidelines and regulatory requirements of Directorate General of Civil Aviation (DGCA) and International Civil Aviation Organization (ICAO) through its massive infrastructure, specialized training aids, smart class rooms, well equipped Laboratory, Workshops and Heavy Aircrafts. The Institute is actively participating in extensive research and development in order to satisfy the diverse need of Aviation Industries especially Airlines, General Aviation and MRO (Maintenance Repair and Overhaul) facility in India. The training programme of Aircraft Maintenance Engineering is fully approved by Directorate General of Civil Aviation (DGCA), Ministry of Civil Aviation, Govt. of India which provide numerous avenues and enormous opportunities to young individuals who opt for this profession. The quality training, the most modern technical infrastructure and highly experienced faculty has been put together to produce finest trained technical professionals to share...
