

Indway Furniture Manufacturing Company Pvt .Ltd

<https://www.indiamart.com/indway-furniture/>

Indway is a leading manufacturer of vingrid ceilings and related furniture products in India.

With multiple tile and grid design options, Indway Vingrid System is the perfect solution to your ceiling requirements.

About Us

Indway is a leading manufacturer of vingrid ceiling systems, office systems and related furniture products in India. Our integrated product portfolio encompasses several lines of systems furniture, mobile furniture, relocatable wall systems, seating, storage and filing, free-standing case goods and accessories. Located at one of the major industrial estates in the city of Cochin, our manufacturing facility is fully mechanized, automated and conforms to international standards which ensure the quality and consistency of our products and solutions. From the very start, Indway has taken a fresh, inventive approach to the office furniture industry. Rather than simply copying or applying conventional wisdom, we sought and developed our own more-efficient ways to manufacture and deliver high-quality products. We have worked to our own high standards. And by doing so, we have streamlined production and design while improving the results of both. That's why our operation works more efficiently and produces a higher calibre product than our larger, more-traditional competitors. We're thinking about the emergence of a new workplace climate, the meaning of new workplace planning models and how ecological principles conform our product designs.
