About Us

Welcome To Infimoon We offer a full range of design services including logo and website design, graphic design services, advertising and Photography, print solutions Infimoon offers a full range of design services including logo, print and website design, graphic design services for brochures, advertising and different promotional materials, Ad Design for Social Media Marketing, online marketing with over three years experience in advertising, we offer a personal approach, with a genuine interest in your company's future. We'll work together to create effective advertising material to meet your overall marketing needs.

We also offer services in portrait, product and commercial photography at competitive prices. Portrait photography includes photographing individuals, in a setting of their choice, to capture the special moments in their lives. We produce high quality product photography for print and web in the convenience of your showroom with our portable digital studio. Interior and exterior architecture is photographed with a 10mm lens, therefore producing a full 180° view, which captures an entire space in one shot.

Our team can accommodate all aspects of your business's graphical needs, from branding, advertising & art to restorative as well as photography, video, image graphics digital for web & print marketing.

Our philosophy is to incorporate what is trending with simplicity

setting your business apart from your...
