About Us

At **Inova Cast Pvt. Ltd**, we are popular for manufacturing premium investment castings in accordance with ethical business standards. Our technical team and investment casting manufacturing services are strongly dedicated to 100 percent customer satisfaction. We also offer customized investment casting in India and worldwide as per market demands and customers' specifications. We are using latest casting technology and advance machineries for producing casting components that are taken as highly valuable in domestic as well as international market. At Inova Cast Pvt. Ltd, precise engineering, cost effective casting solutions and supreme quality are the dimensions we are working on.

Because of our technical expertise in investment casting technology and leadership thought, we are able to establish ourselves as reputed investment casting manufacturers and exporters in India. We are working in the same domain from decades. Each product and component manufactured with us is well tested for manufacturing defects before it is dispatched to international or domestic market. Being a global player, we offer assorted range of product to our clients with precise casting techniques. Our products are highly popular across various industrial sectors because of their durability and functionality. From manufacturing to designing, we are one stop source serving requirements of casting market precisely.
