## About Us

We are an institute by qualified native and Indian Spanish teachers to provide an opportunity to learn and improve knowledge of Spanish language in Bangalore and New Delhi. We felt need of having an institution dedicated to Spanish language because many students face difficulty in finding a good place to learn the language; especially when they see lot of institutions and individuals who claim to teach more than one language, they look for sincere people and institutions who not only offer basic courses in Spanish but also prepare them to really communicate effectively with the Spanish speaking world. Spanish being the second most important language of international communication, offers lot of job opportunities to it's learners. The demand for Spanish language professionals in various industries is spectacular, qualified translators and interpreters are playing a major role in the global business and international relations.

We are a dedicated institute by Indian and native Spanish experts,professionals, university teachers, Spanish language specialists working for promotion of Spanish language, literature, culture and civilization and we want to create the same passion among the learners. We encourage serious study of Spanish language, culture and civilization of Spanish speaking world, their history and civilization.
