About Us

Integrated Pest Management Solutions (India) Pvt . Ltd. is one of the leading Pest Control providers. We provide Domestic and Industrial Pest Control Services in various sectors. The key to success in any pest management programme is directly dependent upon the quality of the people who deliver the service.

Integrated Pest Management Solutions (India) Pvt . Ltd is the pioneer in the Eco-friendly pest management solutions, being the first of its kind in the country, by keeping abreast of the latest developments and use only those chemicals which are approved by EPA and WHOPES. The conceptual approach towards the pest problems made IPMS popular in all sectors of the market.

The technical consultant involved in the company is Mr. Manoj a CFTRI, Mysore trained and a Management Professional with 15 years of pest control service experience. If you find signs of a pest infestation consider calling a pest control professional in order to properly and quickly assess and identify your pest problem. By working with a local pest control professional, you can save yourself the time, money and aggravation of trying to treat the infestation yourself.
