About Us

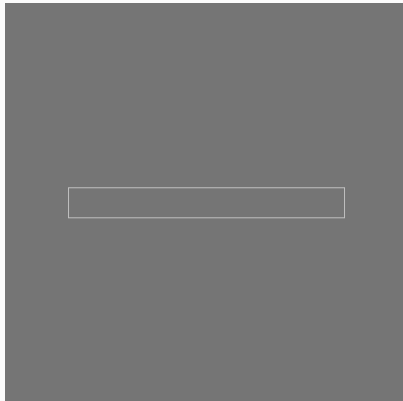

IBC Systems is a Singapore-based software solutions provider. The company was founded in August 2001 by a team of software professionals with extensive industry experience with the aim of producing flexible software solutions to meet the extensive demands of individual clients. IBC Systems has since added a number of large South-East Asian companies to its customer base. IBC Systems offer a wide range of industry solutions like Supply Chain Management, Shipping, Freight Forwarding and Property Management as well as multi-industry business function software such as Financials Solutions. All software products can be customized using IBC Systems' multi-layer customization technology and process to suit the exact requirements of the Customers and Users. Customer Implementation and Support is provided globally through the Indian Operations.
