About Us

Intellisense Technology, as the name suggests has an answer to all your E-commerce problems by providing intelligent solutions. Where ever you are in any part of the world, we?re here to build your Web sites and help you promote your business. We not only build database web sites, but also E-Commerce Sites, B2B, B2C, Job Portals as well as Web Hosting and Domain Registration.

Established in 2006, Intellisense Technology has graduated from a small firm to an International company having Overseas Office at CANADA, UK Head Office at JALANDHAR Punjab , INDIA and Sub Office at CHANDIGARH. Due to the sheer hard work, persistence and efforts of its CEO Mr. HARJIT SINGH, it is engaged in in-house Internet Marketing, Software Development, Domain Registration and Designing of Catalogues, Brochures and Graphics.

We understand your need for Internet Marketing and hence are available for you 24/7 keeping in mind the time difference with outside countries. We are constantly making endeavors to provide you with prompt service and help you in every possible way. We look forward to working with you and are confident that you will be satisfied with our service.

Intellisense Technology often fits between big web design consultancies with their large financial overheads and the small, local companies that simply do not have the breadth of web skills or experience to deliver all parts of a complex solution. Our team of web project managers, designers and...
