## About Us

Intellitech is a global IT product and services company which provides a variety of software products for different industry verticals. We develop products and render our services to individuals, small, mid-sized businesses, large enterprises, global corporations and new generation technology companies - to build new products or services and to implement prudent business and technology strategies in today's dynamic digital environment. We back our products with a first class support team trained to provide timely and accurate answers to all of your questions
