## About Us

ION Water treatment leads the water industry with some of the world's most advanced thermal and membrane desalination plants. We provide small to large cost-effective desalination solutions, such as ION Water treatment , a modular, chemical-free reverse osmosis 'plant in a box', and we have an especially well-proven track record in large-scale membrane and thermal desalination, including some of the largest plants worldwide, ION Water treatment also has a proven experience in ground-breaking industrial water treatment plants that deliver a reliable, sustainable and economical solution for industry.
