IUP Jindal Metals & Alloys Ltd. is a leading manufacturer of High Quality Precision Stainless Steel strips and Soft Magnetic Nickel Alloys
About Us

IUP Jindal Metals & Alloys Ltd. is a leading manufacturer of High Quality Precision Stainless Steel strips and Soft Magnetic Nickel Alloys. It offers a wide choice of thin and ultra thin cold rolled strips. The precise properties of strips produced, meet the most stringent requirements. The Precession Stainless Steel & Nickel Alloys manufactured are useful in manufacturing of various products like textile machinery, clocks, watches & electrical equipments.

IUP (Imphy Ugine Precision), the world leader in Precision Stainless Steel, has provided the company with Technology in addition to the sophisticated equipments, which are the only ones of their kind in India. Jindal Saw Ltd. on its part has merged its Swastik Foils Division in the company. IUP Jindal benefits from Continuous Technical & Marketing support from Arcelor Stainless.
Situated in Bahadurgarh (Haryana), near Delhi, IUP Jindal benefits from the access to the Jindal Group’s technical, manufacturing and logistical resources.

In addition to the products manufactured, the company also provides products like Controlled expansion Nickel alloys directly from IUP, France to ensure the hassle free availability of high quality products to its customers. The company acts as a sourcing hub of Arcelor for all these products in this part of the Globe.

IUP Jindal is the only agent in India, of IUP France, for selling their range of alloys.
