## About Us

We are India-based leading Global Healthcare Technology builders, specializing in providing e-Clinical & Pharma Enterprises Resource Planning

solutions for the Space of Global Pharmaceuticals & Life Sciences Industry. The Team Consist of unique amalgamation of experienced skill sets with an elite vision to help Pharmaceuticals, Biopharma, CRO, Healthcare, companies in achieving quality excellence regarding services & products.

With our one-off focus on sufficing the e-Clinical Trials as well as Clinical Development Industry, we have developed cloud-based EDC application Ateiol TM , a state-of-the-art tool which benchmarks all the leading EDC techniques that not only make the current trial process run better but also transforms it into a more proficient, productive and high-grade enterprise. The superiority of our tool, its abridged usability of the interface and study design environment, along with add-on modules which comply with regulatory standards makes us one of the leading service providers from India.

Our establishment and service providers have a thorough understanding of current technology. We work with a cohesive approach to encompass the extent of clinical trial data to provide improved solutions that scale-fit our client's needs. We have got an unstinting genetic passion for serving and innovating for our clients.

Vision JGS has been growing with a vision of becoming a leading provider of EDC for...
