

# Jakhotiya & Associates Management Consultants

<https://www.indiamart.com/jakhotiya-associates/>

We use an integrated approach for business consultations, combining global realities and Indian priorities. We observe moral accountability and use original ideas, while offering solutions to our clients.

## About Us

We use an integrated approach for business consultations, combining global realities and Indian priorities. We observe moral accountability and use original ideas, while offering solutions to our clients.

Our training programmes are based on latest research, pragmatic and practical business inputs and live cases. We offer focused training for today's application and tomorrow's preparedness.

We write for our clients, for ourselves and for the society at large. We write cases, papers, monographs and books.

Our price to the customer is always reasonable. It is for the 'real value' that we offer to him.

We believe in a perpetual, mutually - enriching relationship with our customer.

Our associate consultants are experts in their specialised areas. Based on the requirements of a consulting assignment, these associates are engaged; with a neatly drawn performance plan.
