## About Us

Jayem Automotives Limited can look back on 60 years of Indigenous Research and Development of the Engineering Products. Its a legacy etched deeply with footprints of untiring research and indigenous development.

It all started when Mr.D. Balasundaram.,B.E. (Sheffield) developed Indias first indigenous electric motor in 1939. The success of the motor fuelled the foundation of Textool Company Ltd., Indias first fully indigenous textile machinery manufacturing company in 1946.

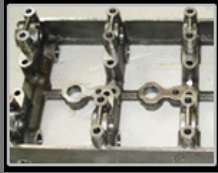

In 1969, All Tools Private Ltd., branched out from Textool and started out on its own, headed by Mr.B.Jayachandran trained in Germany. All Tools Private Ltd. later metamorphised into Jayem Automotives Ltd of today.
