About Us

Insurances statistics reveal that fire is by far the greatest risk to property in the India. In fact, historically, fire accounts for around 75% of the total financial loss sustained in the average year. Of course, the threat to life is most distressing aspect associated with fire, and is something that can be influenced by a wide array of interrelated factors, such as the height of the rooms, the area of the floor and general fire resistance. Occupancy features such as furnishings, equipment, storage and interior finish all come into play, too, whilst human factors, including health, mobility and familiarity with the building are also important Based in Bangalore, Karnatakka, Jayaraj Fire & Security Systems provides fire protection to businesses and homes through Fire Risk Assessments, training, and the supply, installation and servicing of fire safety equipment. All your fire protection needs from one company. Our risk assessment led processes work holistically with you and your business taking care to address your individual needs and unique circumstances.

Assuring you of our best service at all times
