About Us

Jdzine's is a venture taken by a group of professional and talented creative persons, who are in the process of making designing an art which everybody enjoys and participate. As we see there are plenty of designer who provide their designs to clients without understanding the purpose and theme of the art piece, here we analyses and then process it through our creative team to make a presentable and compelling work.

Our work speaks for our Uniqueness in design. We are committed to produce outstanding result for every project be it small scale or larger scale. The creative that are been diminished day by day, we at Jdzines wants to bring it back. People give more focus on Quantity (as per money) and less focus on Quality (as per design).

At Jdzine's we handle all graphic designing, web designing and magazine designing work as well as the print media. Jdzine's perspective in school magazine is to entice and lure students' participation through interesting games, cool write-ups, fun-filled columns, bulletins and activities. We would like to make school magazine an interactive pedestal and students' platform to echoes the spirit of every student.

Jdzine takes immense pride in committing itself to those aspects of the school that adds to the spirit and worth of a school. We believe that school magazine is an interesting platform of interaction for students' ideas, creativity, their thinking, their...
