J.k. Biofuel

<https://www.indiamart.com/jkbiofuel/>

We are placed amongst the distinguished Manufacturer and Supplier of an excellent quality Bio Coal Briquette, Agro Waste Briquette, White Coal Briquette, etc. These products are widely known for their eco-friendliness and long shelf life.

About Us

Established in the year **2010**, in **Nagpur (Maharashtra, India)**, we “**J.K. Biofuel**” are the reckoned **Manufacturer** and **Supplier** of premium quality **Bio Coal Briquette, Agro Waste Briquette, White Coal Briquette** and **Biomass Briquette**. The offered products are processed using basic compounds sourced from authentic vendors in the market and contemporary processing units. These products are widely used in various places such as sugarcane mill, leather & laminating industries, etc. In order to keep smooth workflow, we have urbanized a sophisticated infrastructure base unit that is extended over large area of land. In this unit we have segregated various subunits such as processing, quality controlling, warehousing, packaging and R&D. All these units are well-equipped with modular processing machines and tools. These installed machines and tools are frequently improved according to latest industrial development.

We have recruited a team of passionate and experienced professionals who look behind all the process in our processing units. These professionals work in close co-ordination with each other and clients also for upgrading our business in the market. Additionally, we are supported with a vast distribution network that helps us in fulfilling client's demands in scheduled time-frame. Due to our transparency in business process, competitive prices and client-centric approach, we...
