JLC Electromet Pvt. Ltd.

<https://www.indiamart.com/jlc-electromet/>

Established in 1972, we are manufacturer and exporter of Nickel Alloy Wires, Heating Alloy Wires, Clad Wires etc. Due to high quality range of our products, we have won a wide range of awards & recognition.

About Us

Established in the year **1972**, **JLC Electromet Pvt.Ltd.**, an **ISO 9001:2008** company, is a leading Manufacturer, Supplier and Exporter of Nickel and Nickel based specialty Alloys in Wires, Strips and Ribbons. Headquartered in Jaipur, India, JLC boasts of a state-of-the-art manufacturing facility producing a wide range of World Class products, at competitive prices to cater to the diverse and continuously changing needs of its customers. JLC has sales in more than 40 countries across the world and aims at continuously expanding its bandwidth by adding new regions and customers. JLC has invested heavily in product development and process innovation to create its leading position in the niche-field of Nickel and Nickel Based Alloys.

JLC manufacturing unit possesses a fully integrated production infrastructure starting from melting of virgin raw materials to final packaging stage, lead by a highly qualified team of engineers, supervisors and operators. With its vision to become the Best in Class, the quality control and R&D team at JLC ensures that products and processes meet the best standards of the industry. **JLC supports all its clients with an efficient logistic process to ensure in-time delivery of their ordered products and services.**

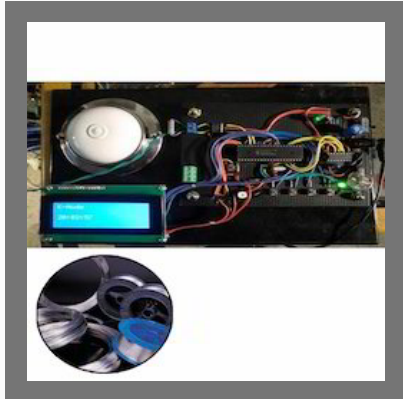

We entertain enquiries from International Market.
