## About Us

Jnininfosystem is a service disabled veteran owned small business, founded and managed by former Special Operations Member Jack Downam, a recipient of two Silver Stars, five Purple Hearts and a Bronze Star with Valor; Service Disabled designation earned for duties performed in combat. Mr. Downam's specialized expertise has enabled him to work on the forefront of technology since the mid 70's. We provide wide range of services ranging from assisting in set up and installation of various IT products to resolving issues while using those products. For details please refer our services. The endeavor of our tech experts is to ensure that you don't have sleepless nights over your computer, laptops or other computer related equipment. We give online remote services which enable you to witness the troubleshooting process yourself and are not required to carry the computer with yourself. The whole process is very easy. For support you just need to call at our Toll free number which enables you to get instant support with least waiting time. Alternatively you can talk to our chat expert who will guide you through the troubleshooting process. We have approvals for online affiliate marketing from different publishers for various brands as mentioned under "click to buy from our publishers" for promoting sale of their products & services through traffic from our website. These brands use their own review system before granting any approval to any company. However, any remote technical...
