

# Orient Enterprise

<https://www.indiamart.com/juaristi-oriental-engineering/>

JUARISTI was founded in 1941. At first, its activities focused on the manufacture of drills, foil rolling mills and diesel engines, although by 1943 it was already producing its first boring machines.

## About Us

ORIENT ENTERPRISE – Offers complete solution in selection of machines. Have gained enormous experience since 1952 after serving more than 400 customers comprising different types of industries. The company was founded by Late Mr. Dahyabhai T. Shah in 1952 with trading in tools. Looking at the Industrial growth and strong manufacturing needs in India, he started importing machines from European countries. Now we have grown beyond the expectations. ORIENT ENTERPRISE is determined to be the best and proven the same. It has established to provide complete technical support under one roof. We not only sell the machines but also extend after sales service. We have our sales/service network all over India serving national and international demands.

We are ideally located at Mumbai and branch offices at Delhi, Kolkatta, Jamshedpur, Pune, Bangalore & Chennai. The company built on heritage of initiative and innovation offers a wide spectrum of CNC machines for the needs of customers who are into Construction, Mining, Automobile, Windmill, Railways, Aerospace, Die & Mould Industries, etc For more than six decades Orient Enterprise has enjoyed sustained and long lasting reputation in domestic market. Today the group with experience and dedicated employees synergize their strengths to form one of India's largest and fastest growing supplier in the field of machine tools. With its heritage of excellence, and its resources of expertise and experience, the Group...
