About Us

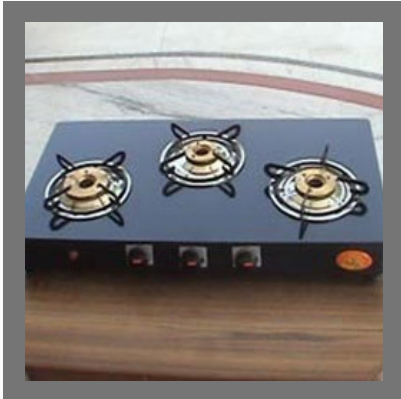

Established as a **Partnership** company in the year **2009** at **Mohali (Punjab, India)**, we “**Jupiter Ellectronics**” are committed towards **Manufacturing** and **Supplying** the outstanding quality range of **Gas Stoves, Tractor Driver Seats, Tractor Silencer** and **Tractor Mud Guards**. Since our inception we have been working hard to accomplish the varied client demands and gain their trust. Our infrastructural facility sprawls over vast area of land and is well-segmented into various subunits. These subunits are the backbone of our company and facilitated by them we are able to meet the large-scale market demands. We have recruited a team of dynamic professionals who are well-versed in their work domain and carry out their assigned task within time. Moreover, owing to the combined support of our comprehensive infrastructure and our proficient team, we have reached new heights in this industry. The offered range is manufactured by our skillful professionals using excellent quality basic material, latest machines and leading technology. Furthermore, this range is widely acknowledged in the market for its noteworthy features like optimum finish, easy-installation, high strength, precise design and durability. We offer our qualitative driver seat range under the brand name **Arynit**. In order to deliver a defect-free range to our valued clients this range is properly quality checked against set quality criterion. Moreover, we...
