About Us

KABSONS GROUP was established in India in the year 1974 for the manufacture of Gas Based Appliances. The Group has since expanded into various areas in the Gas based fields and now manufactures Equipment and Appliances used for almost all applications. The Kabsons Group is one of the largest Groups in the LPG Industry of India. KABSONS GAS EQUIPMENT PRIVATE LIMITED, started in 1981, is a part of the KABSONS GROUP manufactures LPG Valves and Regulators. The Company has various designs of Valves and Regulators in its manufacturing range and has been exporting large quantities to various countries since 1989. Most of the products are type tested and approved confirming to the European Standards - EN 12864 for Regulators and EN 13152 for Valves by the premier European Testing Laboratory - Intertek, UK. The Company is a global supplier to various International Oil companies such as Shell, Total, Caltex, Kobil etc. The Company has developed various designs of Regulators with features such as OPSO/UPSO/Creep Relief for LPG and Natural Gas. We have in our range, Regulators for Marine Applications also. We have the infrastructure to develop equipment as per the requirement of the customer.
