About Us

Kansas Engineers & Consultants stepped into the market in the **year 2000**. Our head office is situated in **Andhra Pradesh in India**. We are eminent trader and supplier of broad range of Circuit Breaker, Power Contactor and many more items. These products are manufactured under the supervision of our experts and engineers. Our team has enough skills for accepting challenges of the people and work to achieve the target. They test the products before procuring them for their delivery to the customers. We offer products in the committed time frame to meet the market demand. It is hard work of **Mr. G. F. Ranjit (Managing Director)** Worked for over 20 years in marketing with M/s. Escort Ltd and M/s Kirlosker Electric Company Ltd. Products handled are HT Switchgear, Alternator, Transformer etc. From the past 10 years handled independently direct marketing, interacting with various central and state Govt. Dept, contractor. Established and maintained vast dealer and service network in A.P. Handled projects implementation and Co-Ordination for turnkey Electrical in more than 200 projects in India. We have pleasure in introducing ourselves as an ISO 9001-2000 Certified Engineering and Consultancy Company offering a ground breaking range of power protection products, solutions and services for a very broad spectrum of industries and sectors. All these sectors have one thing in common the need to protect their valuable...
