We are one of the leading Manufacturer and Suppliers of a broad assortment of Rapid Screening Calorimeters, Thermal Conductivity Analyzer, Isothermal Titration Calorimetry, etc. These are valued for their reliable functionality and durable finish.
About Us

Kan-THT (India) Private Limited, is a wholly owned subsidiary of the joint venture K-analys AB, Sweden and Thermal Hazard Technology (THT), UK, which was established in the year 2012, at Delhi, India. Our company is known as one of the prime Manufacturer and Supplier of a wide range of Rapid Screening Calorimeters, Thermal Conductivity Analyzer, Isothermal Titration Calorimetry and many other products. We have 50 installations in India and also plan to expand our business in segments like Biotechnology, Bioinformatics, Analytical Technologies, Pharmaceuticals, etc. Through our Indian head office, we have expanded our business operations in the Middle East & SAARC countries. Our offered range includes Micro Reaction Calorimeter, Isothermal Battery Calorimeter, Thinky Centrifugal Mixer, etc. These products are sourced from the most reputed vendors of the market and are manufactured with utmost precision as per the latest technological advancement in the industry. The offered products are designed and developed using high grade raw material in compliance with the international quality parameters. Our offered products are highly demanded due to their superior performance, reliable operations, user friendliness, compact designs, easy installation and longer functional life.

We offer Services & Consultancy for Proteomics, Raman Spectroscopy, FT-IR Spectroscopy, AFM, XRF &...
