About Us

Our company strives to endeavor a positive change in the field of electricity generation, by supporting our customers, human resource and society nation and the world, which is striving for increasing demand of electricity. Being a multi faceted engineering company and an unrivaled experience of 18 years we understand in and out of business. Karant electricals has the capability to select the best talent for a specific endeavor, delivering solutions which give primary consideration to the public interest. Merely completion of projects is not a prerequisite for the success of projects. Inclined to find solutions for energy crisis & global need of electricity the company has been giving emphasis on energy efficient solutions & use of non-conventional energy like solar etc.
