KAT INFRA prides itself on having a dominant presence in many fast developing countries such as Ukraine, Kazakhstan, India.

About Us

KAT INFRA prides itself on having a dominant presence in many fast developing countries such as Ukraine, Kazakhstan, India, Russia, and the United Arab Emirates. We supply parts to many other countries and have developed great relations with all the major shipping companies. We have extensive experience with many customs agencies and are familiar with the rules and regulations they have set forth. This helps us deal with foreseeable problems before they arise and expedite shipments quickly and efficiently. KAT INFRA Parts can deliver parts to anywhere in the world (with the exception of the countries on the embargo act). We are a dominant presence with the experience needed to stay well ahead of the competition. An increasing number of clients proves that our clients don't value only our low prices but also our experience. They can rely on us being a one stop shop for all their needs, whether it's a farmer in Indonesia who services a small tractor and requests door to door delivery or a miner in Russia swapping transmissions on massive shovel. Our clients know that to be the best, you must work with the best, so please be next to join our growing family and true professionalism at KAT INFRA Parts!
