About Us

Kinsh Technologies is an off-shore Web Designing & Web Development Company established in India in **2007**. We expertise in designing & developing all kinds of websites, our specialization being Responsive, Mobile and E-Commerce Websites using HTML5, PHP & PHP based CMS like Joomla, WordPress, Magneto, Drupal, Zen Cart & OS Commerce. Our team of “Web Magicians” have worked their magic in developing more than 540 websites for clients across USA, UK, Canada, Australia, New Zealand, Germany & India among other countries. Over the years, we have expanded the spectrum of our services. We have now got more than 50 mobile applications live across Android & iOS platforms. We have a team of SEO, SEM, SMO & SMM Experts to cater to all your needs related to improving your search engine rankings, generating more traffic to your website & create your brand visibility on the Web. We also provide Internet & Email Marketing Services. We can provide “Dedicated Resources” available as full-time, part-time or hourly basis as per client’s requirements for all the technologies that we expertise in. We have executed projects across all types of businesses & industries ranging from manufacturing to retailing to restaurants to healthcare to travel to educational institutes to on-line shopping portals to specialized services like matrimonial or dating services.
