About Us

We sweat the details. Here's How We Work:

All craft begins with a solid process informed by experience, knowledge and passion. Our agile & responsive process is not a series of "ta-da" moments and big reveals, but an ongoing discussion from beginning to the end, focused on getting to know you and your business as well as your user's needs. Every step of our process is thoroughly instilled with craft and attention to detail with the sole focus of doing it right.

About Us:

"We are a web development company that specializes in enabling business online"

Kipzer is a specialist web development company that specializes in enabling business online. We work with clients globally ensuring they utilise the internet to the best benefit of their business. **Kipzer** has created websites that not only achieve technical excellence through innovation, but are also based on solid business and marketing principles, specifically geared towards the Internet sector. The end result being an Internet presence which acts as a vehicle to usher in new sources of revenue, and takes full advantage of this new medium as a highly effective marketing and business tool. From entry level online brochures to full-fledged e-commerce centres, **Kipzer** has worked to develop Internet marketing programs which yield results. Our drive for innovation and excellence, as well as our commitment to quality and...
