Kirti Technology Services

<https://www.indiamart.com/kirtitechnology/>

We manufacture aluminum die casting dies, thermoforming dies and extrusion dies for plastic sheet line plant, Bolster plate for forging presses & Job work on CNC Milling & Boring Machine.

About Us

Founded back in the year **1996**, our company, **K T S Enterprises** is a manufacturer of Die Casting Molds, Thermo forming Dies, Extrusion dies for sheeting plant, axis cam, industrial cams which requires four axis milling. Beside, we also have a CNC milling & horizontal boring job working unit assisting to offer what our clients require. Entire working range is appreciated for simple operation, dimensional accuracy. We have all the necessary inspection equipments for maintaining quality standards.

Under the surveillance of **Chairman Mr. Sawant**, we have emerged as one of the leading manufacturers and dealers of engineering machinery. His technical expertise (over 32 years experience at Mafatlal Engineering and R.H / klockner windsor) and professionally sound team perfectly handles our diversified business lines to give us a competitive edge.

Owing to market leading managerial skills and cutting edge technology, we have received business facets such as manufacturing, dealership & offering specialized job works. We have a precision CNC Milling job set up with 3 CNC Milling and horizontal borer with X travel 1800 mm and Y travel 1000 mm, conventional milling. Surface grinding 1000 mm X 300 mm. backed up by polishing, chrome plating facilities at our associate company.
