Krish Furniture Components

<https://www.indiamart.com/krish-furniture/>

Manufacturer of modular kitchen, wardrobes and home furniture.

About Us

The foundation of **Krish Furniture Components**, which is one of the largest manufacturers of wooden components for modular kitchens and bedrooms in the country, was set with a small retail showroom of modular kitchens way back in 1999. What was started as ultimate kitchens, a 500sft showroom of modular kitchens in a suburb of Bangalore by Mr. Mahesh Shah has galloped into huge industry in itself today. Walking back memory lane, it was not easy to find suppliers at that time as the industry was equal to nonexistent, and a few people who had limited capacity to supply, lacked vision and planning or were monopolizing the trade to a great extent. The mere reason for Mr. Mahesh Shah to venture into manufacturing was lack of supplies and also understanding the fact that there would be at least a dozen more of his kind who would be struggling to set up a decent buyer seller relationship. After about 5 years of successful trading in retail installing about 1500 kitchens and trying in vain to develop vendors, the urge to take it ahead on his own shoulders, up against people who had been for more than a decade in the line of manufacturing was a turning point. Krish Furniture Components was established in the year 2004 launching the brand Elenza, which has since become very popular. Krish Furniture Components has grown steadily thereafter to become a major player of modular kitchen doors, wardrobe doors and Cabinets for various storage units in the Indian furniture...
