About Us

KRISHI RATAN ORGANICS (INDIA)" is a marketing and manufacturing company for organic products. The indiscriminate use of pesticides and chemical products adversely affects birds, animals and human life. Their use on crops and vegetables exerts a persistent effect on them and shows residual effects on our body. The ultimate result includes dreadful diseases like cancer. However, Our company has no such product which exerts an adverse effect on crops and human life or human health. On the contrary, the farmers get bumper produce from their crops. At the same time, farm and soil structure and health remain good. This company is working for past many years and is established in the field of agriculture. Our products include Bio-Pesticides, Bio-Fertilizers and Bio-Fungicides. Some of them like Fisona, Dilap, Distripud are most liked by Farmers and are giving excellent results. In the near future, we are going to produce seeds and other product ranges. Many of our products have become very famous.
